We are proud to announce the launch of the **NEW** company **LOGO** as part of the ongoing evolution of our company's brand.

INphotography has grown and evolved over the last 10 years, and we felt it was time for a change. We have refreshed our logo to reflect who we are today and to symbolize our dynamic future.

The task in the upcoming months will be to update all our collaterals, business cards, social media sites, the new website etc with the new logo. We realize that changing a logo is a process that can involve many steps and take some time, so we will finalize it gradually. We appreciate your kind support. If you have any questions, please don't hesitate to contact us.
